I am a full-stack developer that translates the geekiness behind ideas bringing to life an aesthetically pleasing and fluid app for users.

My background in intellectual property law and culinary arts enhanced my ability to articulate in a business context and to provide creative solutions. This allows me to be an organized and focused team player that collaborates for a positive environment seeking challenges and opportunities to grow and improve, while also developing and delivering.

My main expertise is JavaScript and its libraries/frameworks, but I am also knowledgeable about Python. I am currently learning TypeScript and Redux and looking forward to growing my database of programming language/framework knowledge.

TECH SKILLS

Strong Skills

- CLI, Git, and GitHub
- HTML 5 and CSS 3
- Bootstrap 4 and Sass
- JavaScript and jQuery
- AJAX and APIs
- Node.js and Express
- MongoDB and Mongoose
- React
- Heroku, Netlify and MongoDB Atlas

Working Knowledge

- Python, PostgreSQL, and Django
- JWT, OAuth and PassportJs
- Google Firebase
- Amazon Web Services (AWS) S3, Route 53, and Amplify
- Software Development Life Cycle
- Agile methodology (Scrum)
- TypeScript and Redux

SOFT SKILLS

- Adaptable, solution-oriented, coachable, and fast learner
- Effective working in fast-paced environments and under pressure
- Analytical thinking, active listening, and organization
- Leadership, management, and communication
- Research, investigation, and information gathering
- Proactive, positive and self-motivated

PROJECTS

React-MyFooter: Simple react footer component published on NPM.

Tech: CSS, React, Typescript, Webpack and Babel.

The Path: MERN stack CRUD app for creating travel itineraries, where users can organize their trips adding places to visit and notes to each day.

Tech: HTML, CSS, Bootstrap, JavaScript, React, React Hooks, MongoDB, Mongoose, Node.js, Express, APIs, and Heroku.

Jobbly: Responsive full-stack CRUD app that helps users keep track of their job search, maintaining a database of applications and contacts, adding interviews on their calendar and staying updated with the latest tech news.

Tech: HTML/Django Templates, CSS, Themestr, Python, APIs, Django, PostgreSQL, AWS S3, and Heroku.

InstaGames: Responsive full-stack CRUD games platform, where developers can add their games, comment on other developers' games, play, and read their code.

Tech: HTML/EJS, CSS, Materialize, JavaScript, Node.js, Express, AJAX, APIs, MongoDB, Mongoose, MongoDB Atlas, and Heroku.

Simon 2.0 World: Static page game. My version of the electronic Simon game but with 8 colors instead of 4. Created with 2 modes: infinite and leveled, where the user can choose how many levels he wants to play. Made responsively to be playable at smartphones.

Tech: HTML, CSS, JavaScript, and GitHub Pages.

EDUCATION

Software Engineering Immersive
(General Assembly - Bitmaker Labs / CA)

Feb/2020

Online Certifications:

- Responsive Web Design (FreeCodeCamp)
- Complete Web Developer 2020; Data Structure and Algorithms; Complete React Developer in 2020 (Redux, Hooks and GraphQL) - by Andrei Neagoie (Udemy)

Previous Education:

- Labour Law Certificate (UCM/BR); Public and Private Law Certificate (ISMP/BR); Law Degree (UCM/BR)
- Culinary Management Diploma (GBC/CA)

Languages: English – fluent; Portuguese – native; Spanish – basic; French - basic

EXPERIENCES

Full-Stack Developer – Volunteer
Code Mentoring Toronto

Canada – 2020

- Development of the learning platform, using Typescript, React, Apollo, Jest, NestJs, GraphQL, PostgreSQL, and Lerna.

Software Engineering Immersive Program
General Assembly (Bitmaker Labs)

Canada - 2019/2020

- 450+hour full-time program, where I developed full-stack skills, with front-end and backend languages, tools, and methodologies, always following the best practices
- Completed projects individually and collaboratively in an agile environment
- Technologies used: MVC framework, JavaScript, React, Node.js, MongoDB, Python, Django, PostgreSQL, and more

Pastry Chef de Partie
Buca Osteria & Bar (Yorkville)

Canada - 2018/2019

- Led the pastry team, ensuring the process and the quality standards
- Supported the team with recruiting, training, supervising, and mentoring while maintaining clear and respectful communication
- Managed final orders, stock, inventory, and special requests in a timely manner
- Introduced new products to the seasonal menu and the special tasting menu

Intellectual Property Lawyer
Ariboni, Fabbri e Schmidt Advogados Associados

Brazil - 2013/2016

- Represent several international luxury brand cases, such as Versace, Ferrari, and Gucci, before the Federal Court of Justice
- Applied analytical thinking and organization skills within the business context to plan tasks that should be prioritized and access the options to achieve what each case needed
- Investigated and examined all the pieces of evidence, while researching the jurisprudence to argue and held the case before the judge
- Exceeded partner expectations winning 99% of the cases at the appellate court level
