### Projects

#### SIMON 2.0 GAME

My version of the electronic Simon game but with 8 colors instead of 4. Made responsively to be playable at smartphones. Technologies: HTML, CSS, and JavaScript.

#### INSTAGAMES

Full-stack CRUD app deployed with MongoDB Atlas and Heroku, where devs can add games, comment, play and read the code. Technologies: HTML/EJS, CSS, Materialize, JavaScript, Node.Js, Express, AJAX, API's, MongoDB, and Mongoose.

#### JOBBLY

Full-stack CRUD app that helps the user keep track of their job search. Technologies: HTML/Django Templates, CSS, Themestr, Python, Django, AWS S3, PostgreSQL, and Heroku.

#### THE PATH

MERN stack CRUD app for creating travel itineraries. Technologies: HTML, CSS, Bootstrap, JavaScript, ReactJs, React Hooks, Redux, MongoDB, Mongoose, NodeJs, Express, API's, and Heroku.

### Past Experiences

#### SOFTWARE ENGINEERING IMMERSIVE PROGRAM

*General Assembly (Bitmaker Labs) – Canada | 2019-2020*

Developed and applied full-stack web developer skills in a full-time, 500-hour program, with front-end and backend languages, tools, and methodologies. Completed projects individually and collaboratively using: HTML, CSS, SASS, Javascript, jQuery, ReactJS, MongoDB, NodeJS, Python, PostgreSQL, Django, Github, wireframing, user stories/requirements planning.

#### PASTRY CHEF DE PARTIE

*Buca Osteria & Bar (Yorkville) – Canada | 2018-2019*

Managed pastry team through recruiting, training, supervising, and ensuring all quality standards while maintaining clear and respectful communication. Introduced two products to the seasonal menu.

#### INTELLECTUAL PROPERTY LAWYER

*Ariboni, Fabbri e Schmidt AA – Brazil | 2013-2016*

Represented several international luxury brand cases, such as Versace, Ferrari, and Gucci, before the Federal Court of Justice. Exceeded partner expectations winning 98% of the cases at the appellate court level.
